

ROADS CLOSED AS OF 3-19-19

— CLOSED DUE TO FLOODING

Clay County is experiencing many flooded roads. We are doing our best to get them all signed and closed to protect the traveling public. However, we may not get to them as soon as the water goes over the road, so please use extreme caution when traveling through and around Clay County. With the increasing number of closures that are occurring, barricades are becoming in short supply, so not all closures will have barricades.
